We also identify potential profound disturbances in regulatory control of protein synthesis and cancer surveillance. These disturbances potentially have a causal link to neurodegenerative disease, myocarditis, immune thrombocytopenia, Bell's palsy, liver disease, impaired adaptive immunity, impaired DNA damage response and tumorigenesis. We show evidence from the VAERS database supporting our hypothesis. We believe a comprehensive risk/benefit assessment of the mRNA vaccines questions them as positive contributors to public health.)

He is also one of the key people seeking justice in lawsuits suing medical companies and the federal government involved in delivering the so-called vaccines for CV19. In simple terms, according to Dr. Martin, the CV19 vaccines are "bioweapons." Big Pharma and the government knew it and also knew it would cause massive deaths and permanent injuries. Dr. Martin says, "It's going to get much worse. . . . It is not a Corona virus vaccine. It is a spike protein instruction to make the human body produce a toxin. . . . The fact of the matter is the injections are an act of bioweapons and bioterrorism. They are not a public health measure. The facts are very simple. This was premeditated. . . . This was a campaign of domestic terror to get the public to accept the universal vaccine platform using a known biological weapon. That is their own words and not my interpretation.");

Dr. Fauci and Klaus Schwab must be exposed and stopped. Fear and propaganda were the psychological weapons used in Germany, and similar tactics are being used today, with Jews and the unvaccinated painted by government as dangerous disease spreaders. It violated trust on so many levels that the politicians are going to turn on these people at some point. . . . These things don’t end until the elite pay a personal price, and that’s where we are headed. This is why they need to come forward and start whistleblowing so they can be protected in jails. These crimes are so difficult to hide that there will be that kind of action.
